DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Hill Rustan on March 24, 2005.

The application has been amended as follows:

On page 14, please delete lines 14-19 (paragraph 3) and substitute the following new paragraph:

"As a result, the timer value of the sustain time subtraction timer TACG2 is decreased after time t2, and at time t3 at which the timer value becomes zero, the non-charging mode is stopped, and the operation mode is switched from the non-charging mode to the [[non-]] charging mode as shown in FIG. 4D. By this switching operation, the inter-terminal voltage VB of the battery 13 increases to a level above the predetermined mode switching threshold voltage #VB14V as shown in FIG. 4B".

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Art Unit: 2838

Claims 1-8 recite, among other things, a control apparatus, comprising a voltage sustain time measuring device for measuring a sustain time which begins when the electricity storage device is placed out of the charging mode by the charge control device, and during which the inter-terminal voltage measured by the inter-terminal voltage measuring device remains equal to or greater than a predetermined value; and a non-charge sustain time setting device for setting a non-charge sustain time, during which the electricity storage device is kept out of the charging mode, depending on the sustain time measured by the voltage sustain time measuring device.

The art of record does not teach, disclose or suggest the above limitations, nor would it be obvious to modify the art of record so as to include the above limitations.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samuel Berhanu whose telephone number is 571-272-8430. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michel Sherry can be reached on 571-272-2084. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
